

Kid Tracker

NO MORE HIDE-AND-SEEK !

The Kid Tracker is an easy to use device designed to give worried parents a quick way to locate their children when they wander away unexpectedly. If a child should move more than 33ft (short distance) or 164ft (long distance) away from the parent, a 95 dB beep alarm is triggered both on the Master (the parent's unit) and the Slave unit (which is worn by the child). The Master unit also plays a melody and vibrates when the alarm is triggered. A row of 4 LEDs light sequentially to indicate in which direction the child has strayed.

EASY TO USE

To locate your kids in an easy way, the Slave unit of Kid Tracker looks like an accessory. Once you can't find your children on line of sight, simply push the SEARCH button. Turn around slowly, the more LEDs light and the rapider melody on the Master unit when you point to the right direction of kid.

Key Features

No radiation

Frequency: 2.4GHz Digital RF

65,535 codes

Operating temperature: 0 to 50 degree Celsius

Humidity: 90%RH

Detect distance: 500 meters

Specification

Master

Slave

Model Name	405K		405K2	
Function	Search, Alarm with Vibration, 1 to 1		Search, Alarm with Vibration, 1 to 2	
Search Range	0~500m/1600ft		0~500m/1600ft	
Alarm Distance	Short Distance : 10±5m/82±16ft Long Distance : 55±5m/180±16ft		Short Distance : 10±5m/82±16ft Long Distance : 55±5m/180±16ft	
Master/Slave	Master (M05AM)x1	Slave (S4A)x1	Master (M05AM)x1	Slave (S04A)x2
Battery Type	LR44x2	CR2032x1	LR44x2	CR2032x1
Battery Life Time with Standby	30 days(8 hrs)	30 days(8 hrs)	20 days(8 hrs)	20 days(8 hrs)
Battery Life Time with Sleep	over 90 days	over 90 days	over 90 days	over 90 days
Beep Sound (at 10cm/3.9inch)	95 db	95 db	95 db	95 db
Vibration	Vibration Motor	None	Vibration Motor	None
Dimension (L/W/H)	52.8x39x13.2mm 2x1.6x0.52inch	Diam 45xW12mm Diam 1.77x0.47inch	52.8x39x13.2mm 2x1.6x0.52inch	Diam 45xW12mm Diam 1.77x0.47inch

PS. The connection range depends on the terrain environment because of radio wave efficiency.
